PROACTIVE IT INFRASTRUCTURE MONITORING & MAINTENANCE

Proactive IT Infrastructure health monitoring to increase availability and reduce failures of critical IT systems

“Our proactive monitoring gives our clients peace of mind by improving business continuity, reducing down time and reducing their day-to-day support costs.”

Richard Hiatt
Head Of Service Delivery
Healthcare Computing

The challenge

Protect the vital components of your IT network infrastructure easily and cost-effectively.

Monitor and manage your servers' health and performance 24/7 to ensure your systems are running at optimum capacity.

Increased server uptime, 100% availability and resolving issues before Quality of Service is impaired.

Notifying support groups if there is a server failure or loss of connectivity, before issues develop into more serious problems.

The solution

Our Proactive IT solutions provide our clients the power to reduce their day-to-day support running costs, freeing up IT budget and resources and creating peace of mind.

We can implement a Proactive Monitoring solution to protect the vital components of your IT network infrastructure, enabling you to reduce costs and allowing your end users' IT systems to run more smoothly.

We have the expertise and the solutions to manage your infrastructure's health and performance 24/7, and the ability to identify and prevent potential problems before they occur.

Healthcare Computing
Your trusted NHS IT partner

Healthcare Computing Ltd - Email: info@healthcarecomputing.co.uk - Tel: 0845 0346344

Hc 
healthcarecomputing.co.uk
