

# WINDOWS 10 DEPLOYMENT TO LAPTOPS AND DESKTOPS

Windows 10 goes end of life soon, now is the time to plan your migration and HC can help you design and deliver the most cost and time effective solution

## Risks caused by delaying your migration to Windows 10

## WHY US?

### Project Management

Our experienced Windows 10 Project Managers are all Prince2 certified, using our tailored specialist methodologies to take full responsibility for delivering projects through the whole project lifecycle.

### Engineering

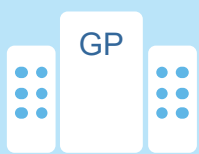

We develop flexible and scalable technical approaches for our customers and could work with you to build the right approach either using tools you already have or utilising our own tried and tested approach's.

### Project coordination

With our projects, you will have a dedicated Project Coordinator who will take care of all the booking, scheduling, logistics and resource management, taking the day to day pain out of the project away from you.

## HC EXPERTISE

Customise technical approach: Best practice methodologies

### POSITIVE FEEDBACK

Excellent feedback rates with over 96% of positive user feedback

### +100 YEARS

Over 100 years combined engineering experience delivering Primary Care IT projects

### 20 YEARS EXPERIENCE

Vast experience delivering Primary Care IT Projects for over 20 years

*“ The overall experience was very good. Very little disruption to the staff during the windows upgrade. The engineer was brilliant. He ensured that everything was in full working order and also made a follow up call a couple of days after the completion to enquire that everything was still working for all staff. Thank you for the brilliant service.”*

**Sharon Cox** - Practice Manager at *The Wilson Practice*
